

As the galaxy descends deeper into the darkness of Palpatine's Empire, a few sparks remain. A renegade fleet led by A'Sharad Hett is striking blows against the Imperial Navy, while Jedi Jax Pavan and his allies are fighting the enemy on Coruscant itself.

The Emperor has tasked Darth Vader to bring his enemies to heel. As Vader hunts Jax Pavan, he must almost compete with other ex-Jedi who have fallen under the Emperor's sway, but his greatest challenge is also the most personal. The planet of Naboo has become a conduit for Jedi fleeing the Purge. Anakin Skywalker once loved Naboo. Now he must prove his loyalty by subduing all dissidents, even the family of his late wife.

As the Empire descends on Naboo, the fugitive Jedi are caught in the maelstrom. What emerges is a savage fight for survival where no being- Imperial, Jedi, civilian- will escape undamaged.
